FILM #2 — SECTION 2: “THE MORNING AFTER” · STORYBOARD MAP (shots 21–57, shot 31 CUT)

Status: map and quote only, nothing generated. 46 VO lines (VO-028 to VO-073), 148.99 s, 36 shots: 32 generations + 4 assembly states (35, 40, 50, 54). Shot 31 is CUT: VO-040 now plays over shot 30 (VO-039–040, 5.82 s, slow push at assembly). No renumbering. Cost: 32.00 credits spent.

SHOT	TYPE	VO	DUR	VERBATIM LINE(S)	PICTURE	NOTE
21	GENERATE	VO-028–029	4.49s	**Before we get into those 3 hidden truths — let's pause for a second.**	Morning, his room, desk standard. He sits in the #1 chair, turns to the camera with one hand raised in a 'pause' gesture, calm and knowing.	Opens the section; calm, bright.
22	GENERATE	VO-030	3.47s	**And understand what actually just happened to you last night.**	Same room. He rests his chin on his hand, thoughtful, glancing back at the LIVE light on the desk (last night).	
23	GENERATE	VO-031–032	5.59s	**There are more than six million people who have pressed that same button you pressed. Six million.**	THE SIX MILLION: a vast wall/grid of tiny streamer rooms, hundreds of identical small rooms, each with a tiny desk and a tiny glowing monitor; most rooms are empty and dim. No text, no numbers.	5.59s; slow push-in on 'Six million.' (assembly move). Base image for the funnel: shots 24, 25 and 26 use it as a reference.
24	GENERATE	VO-033	5.15s	**Most of them stream to an empty room — the same empty room you streamed to yesterday.**	Closer on a few of the tiny rooms: the front room is dim, with a plain chair, a desk and a dark monitor, completely empty (the same empty room as yesterday).	Slow push (assembly).
25	GENERATE	VO-034	5.41s	**Out of all six million, only about eighty thousand become an official partner.**	The same grid as 23, but a small highlighted slice glows warm gold, each room in it wearing a partner badge (a round check-mark icon, no words). The rest stays dim.	Badge is an icon only. No numbers.
26	GENERATE	VO-035	3.00s	**And above all of them, there is one chair.**	ONE giant #1 gaming chair (blue/black, gold trim, glowing #1) rising above the shrunken grid of rooms, centered, alone. NO crown, NO spotlight.	The chair is the only large object in frame.
27	GENERATE	VO-036	2.77s	**This morning, that chair became yours.**	This morning: he sits in the #1 chair, proud and settled, morning light, desk standard, LIVE light dark (not live yet).	Pays off 26.
28	GENERATE	VO-037	3.55s	**You open your dashboard in shock — you can't believe what you see.**	He leans toward the monitor in shock. The screen shows TODAY'S dashboard: a big subscriber counter with the person icon (shot 17 style) and a graph line shooting up. The digits are motion-blurred and unreadable.	See Question 1 on the digits.
29	GENERATE	VO-038	4.28s	**Yesterday, that screen had almost nothing to say.**	YESTERDAY: close on the monitor, dim and dull like shots 2-3, nearly empty: the small eye icon and a tiny 2, a flat empty graph. No stickman.	Dull-red LIVE light visible at the edge if it fits. Yesterday color grade.
30	GENERATE	VO-039–040	5.82s	**This morning, the number will not sit still. Every time you look, it goes higher.**	TODAY: the monitor close-up, alive and bright, the big person-icon counter with rolling blurred digits and a climbing graph.	Shot 30 now carries VO-039 and VO-040 (5.82 s); slow push at assembly covers both lines. Shot 31 is CUT.
32	GENERATE	VO-041	3.00s	**You keep asking yourself if this is even real.**	He sits in the #1 chair with one hand on his cheek, eyes wide, mouth slightly open, 'is this real?'	
33	GENERATE	VO-042–043	4.80s	**Your phone won't stop ringing. It can't keep up with all the notifications you are getting.**	The phone on the desk ringing hard (ring lines, a plain round caller circle, no letters) with a stack of plain notification bubbles overflowing past the screen edge.	Same desk and table logic as the shot 4 fix. Distinct from shot 4: ringing call plus overflow.
34	GENERATE	VO-044–045	3.03s	**You take a moment to gather yourself. You press the button.**	He closes his eyes and takes a breath, then his hand rests on the big button on the desk, finger about to press. The LIVE light is still OFF/dim (not live yet).	Base for shot 35. The LIVE light must be switched off here.

SHOT	TYPE	VO	DUR	VERBATIM LINE(S)	PICTURE	NOTE
35	**ASSEMBLY**	VO-046	1.72s	**The red light turns on.**	Assembly state of 34: the LIVE light flipped to BRIGHT red and glowing, the button lit.	Free local flip, same as the desk composites.
36	GENERATE	VO-047	4.52s	**And the room is already full — before you even say a single word.**	LIVE bright. He sits in the #1 chair, mouth closed, eyes wide. The large monitor shows the stream with the chat column already FULL: streaking blurred chat lines and plain white viewer-face icons. No readable text.	The 'room' is the chat room, on the screen.
37	GENERATE	VO-048	2.85s	**Yesterday, this room was empty.**	YESTERDAY, dim: the monitor close-up in shot 3's layout (stream view left, an EMPTY chat column right). The eye icon and 2 at top left of the stream view. Nothing else.	Dull-red LIVE light at the edge.
38	GENERATE	VO-049–050	5.36s	**You close your eyes, take a deep breath and start the only way you know how.**	He sits in the #1 chair, eyes closed, chin up, taking a deep breath, hands on the armrests, a faint smile. Morning, LIVE bright.	
39	GENERATE	VO-051	5.41s	**You open your mouth with a big smile and say the same thing you have for every stream before this.**	Facing the camera at the mic, he opens his mouth in a big beaming smile, about to speak. Desk standard behind, LIVE bright.	Base for shot 40.
40	**ASSEMBLY**	VO-052	2.27s	**“Hello everyone, welcome to my stream!”**	Assembly state of 39: a tight push-in on his beaming face, mouth open mid-greeting. NO on-screen text.	If the crop is too soft I will tell you before generating.
41	GENERATE	VO-053	3.40s	**You're not doing anything special today. You're just talking to them.**	He chats casually at the mic, one hand gesturing, relaxed, easy smile. The monitor shows the stream with plain viewer-face icons in the chat column.	
42	GENERATE	VO-054	5.88s	**Telling them you can't believe it. Thanking them. Reading names as the gifts fly in.**	One hand on his heart, thankful and emotional, looking at the monitor where plain gift-box icons fly across the chat. No text.	5.88s; slow push (assembly).
43	GENERATE	VO-055	4.44s	**And the whole time, on the screen next to your chat, the counter is climbing.**	Monitor layout: the stream view with the person-icon subscriber counter on the stream side and the chat column beside it (blurred streaking lines). The counter has an UP-ARROW icon and no readable digits.	See Question 1.
44	GENERATE	VO-056	4.52s	**Now the gifts and the money start pouring in — faster than you can even keep up.**	The monitor screen overflowing with gift boxes and gold coins pouring across it. He watches, overwhelmed. The physical room stays normal.	
45	GENERATE	VO-057–058	3.84s	**And tonight is not even here yet. Your phone won't stop ringing.**	Bright midday sun in the window (not night, not dusk). The phone on the desk is ringing; he glances toward the window.	One picture carries both lines.
46	GENERATE	VO-059	5.25s	**Friends, family and even people you haven't heard from in years are reaching out.**	His phone held up, covered in a column of round simple-face contact circles with call buttons (family and friends reaching out). No letters.	Distinct from shot 13: calls, not text bubbles.
47	GENERATE	VO-060	3.87s	**There is so much happening that you don't even know what to do.**	Too much at once: both hands on his head, eyes wide, the phone ringing on the desk, the monitor busy with bright activity.	
48	GENERATE	VO-061–062	4.89s	**And you can't stop watching the number climb. You tell yourself to stop checking.**	He stares at the monitor's person-icon counter, then lifts a hand to cover his own eyes but peeks through his fingers. Digits motion-blurred, no readable numbers.	
49	GENERATE	VO-063–064	3.53s	**You check again five minutes later. Eight hundred thousand.**	He leans toward the monitor with one hand pressed to his chest, tense. The counter beside the chat reads exactly: 800,000 (person icon).	THE CLIMB. Base image, counter state 1. See Question 2.
50	**ASSEMBLY**	VO-065	1.72s	**Nine hundred thousand.**	ASSEMBLY STATE of 49: the counter flips to exactly: 900,000.	Counter flip only.

SHOT	TYPE	VO	DUR	VERBATIM LINE(S)	PICTURE	NOTE
51	GENERATE	VO-066–067	5.98s	**Your heart keeps pounding as the number continues to rise. You can't believe this is actually happening.**	Both hands on his chest, mouth open in disbelief. The monitor in the background shows the person icon and 900,000.	5.98s; slow push.
52	GENERATE	VO-068	5.56s	**You are just someone sitting in a small room, watching his whole life change on a screen.**	WIDE pull-back from behind and above his chair: a small room, he is small in the #1 chair, the glowing monitor the brightest thing in the room.	Pull-back (assembly move). Emotional low-angle beat.
53	GENERATE	VO-069 (first half)	4.82s	**Under all these new hundreds of thousands of subscribers on your screen, there is one small line containing the first hidden truth. (first half, to "…on your screen,")**	The monitor big in frame: the person icon and 900,000 in large digits, and beneath it ONE tiny blurred line (an unreadable smudge of small text). He sits at the left edge, looking at the screen.	9.64s split in two (my call, see Question 3). First half: hold wide.
54	**ASSEMBLY**	VO-069 (second half)	4.82s	**(second half: "there is one small line containing the first hidden truth.")**	Assembly state of 53: a slow push-in toward the tiny blurred line. The line must stay UNREADABLE at the end of the push.	Second half. Crop kept shallow so the blur never resolves into words.
55	GENERATE	VO-070–071	4.15s	**You don't read it. It is the last thing on your mind at this current time.**	He turns his head away from the screen, looking toward his phone or the window with a happy distracted smile; the screen glows behind him.	
56	GENERATE	VO-072	3.40s	**You are too busy becoming the biggest streamer in the world.**	Triumphant: he leans back in the #1 chair, arms spread wide, confident grin. The monitor glows behind. No crown, no spotlight.	
57	GENERATE	VO-073	2.43s	**Let's jump in to the first hidden truth.**	BRIDGE: he turns back to the camera, one brow lifted, a small tense half-smile. The room's light has begun to dim a notch (dusk-blue), lighter than shot 20.	Last shot of the section. Mood starts to shift.

Generations vs assembly states

Generate (32): 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 36, 37, 38, 39, 41, 42, 43, 44, 45, 46, 47, 48, 49, 51, 52, 53, 55, 56, 57
Assembly states (4, free): 35 (LIVE light flipped bright on 34), 40 (face push on 39), 50 (counter flipped to 900,000 on 49), 54 (blur push on 53).

Quote

32 generations × 1.00 (gpt_image_2_5, 2k, medium, 16:9) = 32.00 credits. Balance 870.26 → about 838.3 after. Desk composites (shot 9 standard) and tone-matching are free local work. Re-rolls are 1.00 each; I will ask before spending any.

Decisions I made (change any of them)

• Density: most shots are 3–5.5 s. Short lines ride together (21, 33, 34, 38, 45, 48, 49, 55). Four shots run longer than 5 s because the VO line is long and one picture carries it (23, 24, 25, 39, 42, 46, 51, 52).
• VO-069 (9.64 s) is two shots: 53 is the generation (hold wide), 54 is a push-in on the same image toward the tiny blurred line. I chose two so the push gets its own beat instead of one 9.6 s hold.
• The climb (VO-063–066): shot 49 is the base (800,000), shot 50 is the assembly flip (900,000), and shot 51 is a new generation (hands on chest, 900,000 in the background). One base + one flip, as you suggested.
• The funnel (23–27): 23 the wall of rooms, 24 closer on one empty room, 25 the gold partner-badge slice, 26 one giant #1 chair above it, 27 him in the chair this morning. Icons only, no numbers or words.
• Yesterday/today dashboard: 29 and 37 are dim yesterday close-ups; 30 is the lively today screen; 31 is a push on it.
• The plant (53–54): one small blurred line under the big counter. It stays unreadable at the end of the push.
• The bridge (57): he turns to the camera, one brow raised, the room starting to dim a notch (dusk-blue), well short of shot 20.

Questions before I generate

1) Digits on screens that are not on your list. Shots 28, 30, 43 and 48 show a rising counter before the climb. I plan to show it as motion-blurred digits (unreadable) with the person icon, and shot 43 with an up-arrow icon and no digits. Or give me exact strings.
2) Strings I reuse from earlier approved shots: “2” with the eye icon on shots 29 and 37 (as in shots 2–3), and “900,000” with the person icon on shots 51 and 53. Please confirm 900,000 is the right number for VO-069 (“hundreds of thousands”).
3) Shot 54 (the push on the blurred line) is an assembly crop. If the crop looks too soft I will tell you before generating anything.
